

# THE WAINWRIGHT STAR.

VOLUME III. WAINWRIGHT, ALBERTA, THURSDAY, APRIL 13, 1911. NUMBER 30

## Modern Fire Hall will Be Constructed

Committee, Composed of Fire Chief Washburn, Chair, Munson and Solicitor Fieldhouse will Visit Other Towns and Inspect Fire Halls.

Following preliminary plans and suggestions for the construction of a fire hall, the town council met on Tuesday evening and discussed the early erection of such a building. Rough sketches by Architect Stimpson were submitted for approval, together with plans from Unity and Red Deer, where fire halls have already been built.

It is the intention of the council to erect a modern and up-to-date building, and to that end, will act wisely in the matter and send a committee on a tour of inspection to Vegreville, Fort Saskatchewan and Edmonton, where such buildings are now being used. The committee appointed to represent the town will be composed of Council, Munson of the Fire, Water and Light Comm., Fire Chief Washburn and Town Solicitor Fieldhouse all of whom have had experience in such structures. This party will probably start on their trip next week, by auto, proceeding to Vermilion, thence to Vegreville and from there to Edmonton.

During the meeting, the matter of a permanent cemetery was taken up. The Mayor thought that something should be done immediately in the matter, as many had already asked him concerning the present site and whether or not it would be a permanent burial ground. As he could not state what was to be done, he asked Council, Watson, chairman of the Cemetery Comm., what steps he had taken to procure another site. Council Watson stated that as yet, the committee could report nothing definite but were looking into the purchase of forty acres in Section 26, legal subdivision 10, from Mrs. Kenney, with a view of using such for a cemetery. Considerable discussion took place and the "proposition" was finally left in the hands of the Cemetery Comm.

Mr. M. A. Harpell, Dominion Land Guide and of the firm of Harpell & Pawling, is confined to Dr. Watson's private hospital, with inflammation of the stomach. Although his condition is not serious, it will be sometime before, he will again be able to attend to his duties. His many friends hope for a speedy recovery.

On Tuesday of this week, the Wainwright Pharmacy was transferred to R. A. Snyder from E. C. Logan, the former manager. For sometime past, Mr. Logan was indisposed as to whether he would remain in the business or not. The present manager, Mr. Snyder has ordered a completely new stock and will be in charge in future.

On Tuesday afternoon, Mr. Richard Aykroyd left for Montreal, from whence he will sail to Scotland. Mr. Aykroyd will represent the G. T. P. in the Old Country and work in the interests of western immigration. Mrs. Aykroyd and children accompanied him. They will probably be absent about six months.

After a very brief illness from spinal meningitis, the death occurred last Sunday at home of Harold John, the eighteen months old son of Mr. and Mrs. W. J. Milburn. Interment was made in the proposed Catholic burial ground here, on Tuesday afternoon. Small Bros. were in charge of the funeral arrangements.

On Tuesday, Mr. and Mrs. W. T. Stott, who have been in Vancouver for the past four months, returned to Wainwright, where they will reside permanently in future. Mr. Stott was well pleased with the town and its prospects.

## Buffalo Will Arrive Friday

The latest shipment of buffalo from the Conrad herd in Montana to the local Buffalo Park will arrive during the latter part of this week, according to a recent statement of Parks Commissioner Douglas. On Sunday last, he left for Kalispell, Montana, where he will superintend their shipment here.

The Conrad herd will be completely broken with this final shipment and will join their brothers already here and mingle with those of the Pablo herd, shipped from the Flathead Reservation. Nothing definite seems obtainable as to the final bunch from the Pablo park, although it is presumed that the action, taken by Pablo in regard to the outlay bulls and their shooting, indicates that the United States Government are in a predicament as to what could be done were the long-announced hunt to take place.

## Wainwright is of Distributing Importance

International Harvester Co. Will Build Large Warehouse at Local Siding -- Realize that Wainwright Will Soon Become Important Distributing Centre.

As a sequence of the large business being done at this point by the International Harvester Co. and their intention of making Wainwright an extensive distributing point for a large territory, this company will shortly erect a large warehouse, at the local G. T. P. siding, with dimensions of sixty by one hundred and forty feet.

The construction of this warehouse will be started as soon as satisfactory arrangements are made with the Grand Trunk for a site, negotiations for which have already commenced. The building will contain space for farming implements to the extent of twenty-five car load lots, which will be distributed from here to points along the line. This enterprising company has done and is still doing a large business in this locality through their local agents, Messrs Harpell & Pawling and N. E. Girard, who has but lately taken over the local agency of the Deering branch of the company.

Such a building as is now being planned will be a great addition to the town and the confidence placed in the district by this company indicates that a larger and more profitable business will result at the establishment of a distributing warehouse at this point.

## PLEASED WITH DISTRICT

Stopping off at all the important centres between Nebraska and Wainwright, Mr. and Mrs. D. W. Devenson of O'Neill, Nebraska and Mr. F. W. Bell, late of England, arrived here last week to look over the rich farm lands of this district. Since coming here, Mr. Devenson has travelled over a considerable portion of the south country and although this part of the district is generally conceded to be of rather light soil as compared with that of the northern portions, he was greatly impressed with the advantages offered there. Mr. Devenson was also greatly taken with the town and stated that there were greater prospects offered at this point than at any other he had yet visited in the west.

## MATERIAL PROGRESS BEING MADE TOWARDS PROFITABLE FARMING

Large Land Company, Headed by Member of Quebec Legislature, will Reap Harvest from 900 Acres of Flax -- Purchased \$9000 Worth of Farm Machinery.

During the month of September of last year, Hon. A. A. Mondou, general manager of the Quebec and Western Land Syndicate Ltd., put through a deal with the Union Trust Co., who own extensive farm and wild lands in the Wainwright district, for the purchase of section 7-12-3, lying about five miles north east of the town. The company is composed of wealthy French capitalists, among whom is the Hon. A. A. Mondou, of the Quebec Legislature. He it is, who will look after the interests of the syndicate in this locality.

Very recently, the same company purchased the east half of 45-6 from W. B. Crawford, with the result that they now have one section and a half, which will be broken up immediately. It is the intention of the company to start development this week, and for this purpose, have already procured all the necessary for extensive farming operations. Last week, Mr. N. E. Girard, who has the local agency for the Deering branch of the International Harvester Co., disposed of upwards of \$10,000 worth of farm machinery to be used by this large syndicate. This transaction included a twenty-five horse power gasoline traction engine, separator, plows, binders, mowers, rakes, packers, discs and every form of machine, needed in such large enterprises. In addition to this large equipment, the company has twenty

horses, horse plows, packers, etc., on the scene of operation, with ten experienced men from Quebec to carry on the work. In a recent interview with Mr. Girard, who was originally responsible for such a large syndicate locating here, he stated that the company would shortly procure more land and farm it extensively together with that already purchased. It was their intention to build their houses, barns and granaries during July and make room for the large crop, expected this fall, from the seedling of 500 bushels of flax, this spring. Plowing would commence immediately, both by the gasoline outfit and the ten teams of horses already here. Between now and the middle of May, they expected to turn the soil on 900 acres of land, which will all be sown in flax. "Another year," added Mr. Girard, "this syndicate will probably have 2000 acres under cultivation."

At the time, Mr. Mondou was in Wainwright last fall, he made an inspection of the farm lands in the district and the crops as well, pronouncing that he had seen no place where the crop average was so well maintained. At that time, he stated that the land acquired by his company would be used as a demonstration farm and the time would come, when they would acquire increased tracts and resell to farmers. As the result of this visit to the Wainwright district, many French settlers have already arrived here this spring, who will permanently locate.

This land company is capitalized at \$1,000,000, with headquarters at Pierreville, Quebec. The syndicate also owns five or more sections in Saskatchewan but they report that no more purchases will be made in that province and that the Wainwright district will receive the first preference.

The result of this wealthy company entering the Wainwright district to make extensive developments in farm lands will certainly be an impetus to those already here and new settlers as they enter. In this district, there are at least two companies, that are operating their lands on the large scale. The Aykroyd Brothers have this year made provision for the largest crop, since they entered the district, having purchased no less than 2,200 acres since they have settled here. They, too will carry on extensive farming developments this season. Last year, these enterprising grain growers surprised the entire country, when they demonstrated to small farmers, the advantages of a practical farming system, when at harvesting, they cut their grain and plowed the land simultaneously. It is their intention this year to not only do this but also at the same time to do their disking and packing in one operation.

## Manitoba Farmers Are Optimistic

Farmers in Manitoba are very optimistic at the present time over the full wheat crop in that province. The cold snap during the past few weeks is thought to be the breakup of the spring. Although there is still much frost in the ground, a few days of warm weather will put the ground in excellent shape for seeding.

All Manitoban farmers are unanimous in the opinion that the outlook has never been better and indications point at the present time to a most favorable season among the grain growers.

The Ladies Aid of St. Andrews Presbyterian Church will serve strawberry ice cream and cake Saturday afternoon and evening, April 15th, at Mr. Luski's store, Second Avenue.

The remains of Miss Edythe Aykroyd, who died last December, were removed from the local cemetery and transferred to Sydenham, Ont., on Tuesday. The reason for such action was due to the fact that the present burial site is probably not a permanent one and Sydenham being the place where Mr. Aykroyd was buried some years ago, in the family lot there.

E. C. Logan was a passenger on the Educational on Tuesday, on his way to the west.

## School Report Shows Deficiencies

The monthly report from the town school shows the following: In Prince, McLean's department, the number enrolled for March was 23, with an average of 20.30 and a percentage of 88.65, the latter being lowered by several pupils. In Miss McGregor's department the number enrolled was 28, average 20.07 and percentage of 93.11.

In the department in charge of Miss Shantz the enrollment was 39, average 35.15 and a percentage of 90.12. The total monthly attendance was 90, with an average of 81.61 and the high percentage of 91.

In the same report the principal reported the following requirements: (1) Storm windows should be taken off. (2) More coal required. (3) Desk bolts wanted for teachers. (4) Water in well not good. (5) Forms for monthly report. (6) Library books.

The attendance and regularity of the pupils was reported as being particularly good and very satisfactory and their work very commendable.

The local real estate agents state that the sale of farm lands was never more brisk than it is at the present time. W. B. Crawford has sold four quarters of land during the same number of days just elapsed.

## Better Opportunities Than Elsewhere

Realizing that Wainwright was superior to any district, he had seen on his tour of inspection, Mr. John McCann, formerly of Wainwright, returned here this week, after a year's absence in Morehead, Minn. and purchased the N. E. quarter 24-44-7, 4th. M. It is now Mr. McCann's intention to engage extensively in mixed farming.

On his return here, Mr. McCann stated that he saw greater opportunities here for the farmer than in any place he had visited during the past year. In consequence of this, he has decided to make Wainwright his home. This is one of the many instances where people have left Wainwright with a view of locating in a better district but after a trial have returned to take up their abode in the Buffalo Park district.

Following complaints from many of the local sports, the general admission at the boxing bout on Monday evening next has been reduced from \$1.00 to 50 cents. At this price, there will no doubt be a large attendance. The first two rows remain the same, -- \$2.00 per seat.

James Mitchell, late of Scotland, arrived in town last week and will locate on the sixth west quarter of 19-45-6, having purchased that quarter from the Wainwright Realty Co. through Richard Aykroyd, while in Scotland last year.

## Business Men's Banquet, April 20th

The long talked-of business men's banquet has finally been arranged for and Thursday evening, April 20th, will see the affair through with. Such was the decision of the Board of Trade at its last meeting.

The dinner will be held in the Wainwright Hotel and already, many business men have come forward in favor of such a move. Very few have refused to attend, upwards of fifty having given their assistance by subscription and contribution.

Although, a banquet of this kind has never been held in Wainwright before, it is evident from the interest now being displayed that it will be a pronounced success. Speakers will be procured by the Board, among whom will be W. P. Hinton, G. T. P. General Passenger Agent and Mr. W. Dowen who is managing the Wainwright Department of the International Securities Co., at Winnipeg.

## H.B.Co's. Lands Have Increased \$10 per Acre

Land Throughout the District Increasing in Value as Time Passes -- Hudsons Bay Co. Announce Increase of Lands from \$5 to \$10 per acre.

The values of farm lands in this section of the west are each day increasing by large amounts not only those owned by large land companies but almost every quarter section, owned by the individual farmer. The upward movement has been particularly strong during the past week, when the greatest increase was noticeable in the farm lands owned by the Hudsons Bay Company. Local real estate agents declare that these lands have increased in value, anywhere from 85 to \$10 per acre. Farm lands that were formerly selling at \$15, are now quoted at \$25. In the case of the private land companies, it might be noted that one local realty company, recently purchased a quarter section near town at \$2 an acre and the figure asked for same quarter now, is \$30.

Various reasons are given for this marked increase, one and perhaps the strongest, being the expected benefits to be derived from the recent Reciprocity Agreement. Others state that this portion of the province is the only place where lands are selling at such low figures as from \$14 to \$20 per acre and since the northern sections have proven that as good, if not better crops can be harvested from the soil, there is no reason, why farm lands in these districts should not be quoted in the same class as the older and more settled sections.

## Easter Services of Song

There will be special Easter Services, morning and evening, in the Grace Methodist Church, next Sunday. The choir is making special preparation and will render inspiring music in the form of Anthems, Duets, and Solos. There will be brief sermons on Easter Themes. There will also be a baptismal service in the morning.

Easter sermons at St. Andrews Presbyterian Church, Morning and Evening. The resurrection life. Evening 7.30. The resurrection message. Singing and music to harmonize with the subjects.

The town school baseball team will go to Galt Edge on Friday to play the team there. The local lads have had considerable practice and are confident of winning.

## Wage Scale is Same Here as Elsewhere

Local Articles on Mail Order Houses, Creating Much Discussion -- Railroad Man Thinks Living is Cheaper Here than in Cities, Wages Scale the Same.

To the Editor of the Wainwright Star. Dear Sir: I have read with much pleasure the letter appearing in your last issue, over the head of "John Giles" -- the "non de plume" of one, with whom I am in sympathy, in certain respects, in others, I will admit in the beginning, were, in my estimation, a little too far reaching.

The writer is neither a local business man nor a district farmer; (the two parties, who were vitally concerned in this letter, I refer to) but is earning a living in the town and I might say, is earning it hard. The money, I spend in the town is money that has come from late hours and constant work towards the support of a wife and family, with rent to pay, provisions to buy and the necessities of household wants. There are many men like me and especially among the railroad men, who work late and early and spend their money in the town for their needs.

It is safe to say, without a verification from the railway company, that the monthly pay-roll of the G. T. P. at this point amounts to upwards of \$5,000 per month, the greater portion of which is paid to men, who reside in the town, and who spend their money among the business men. Perhaps it would be placing it as a small figure to say that \$2,500 of this amount is spent here each month, all of which is paid in for provisions and household supplies. Now I presume that the mail order houses, referred to in former articles in the Star, were such wholesale houses as T. Eaton & Co., Simpson and the like. With these houses, I am not in sympathy in the following conditions, -- provided that the local merchant receive his working profit, besides the local merchant carries such men as us, until the end of the month, on accounts that would amount to say 10% less than these mail order houses. We cannot expect the local merchant to compete with Winnipeg, for the simple reason that they do not buy and cannot afford to buy in such large quantities! In a town such as this, living expenses are certainly lower than in the city; when rent and other expenses are considered, but practically the same scale of wages exists as in the city. Why then should the working man not be willing to sacrifice a small portion of this excess and aid the citizens and business men in upbuilding the town? I am not in favor of rogues, neither am I in favor of paying twice as much as a thing is worth, such action at this on the part of the business men, should not be stood for by any customer, but I am strongly of the opinion and believe from dealings that I have personally had with local houses of business that the business men of Wainwright are giving as much of the rope to their customers as the customers are giving them. If everyone was of the same opinion, I think that cheaper prices could be brought about right here, without even asking the Winnipeg price.

If you think these few words worthy of publication, you are at liberty to use them for whatever means you may see fit.

## MORE VIEWS MAIL ORDER QUESTIONS

It is with pleasure in this issue that we publish a letter, bearing upon the mail order house question, articles on which have been appearing in several of the late issues. The article is from a railroad man, who does the greater part of his trading in Wainwright and a man, who is one of a strong and influential class of citizens. For that reason, the letter is gladly received.

All that has been said pro and con on this question has no doubt been read with interest. Many views have been expressed and it is the duty of every intending purchaser to consider the two sides before making his purchase in Winnipeg or other foreign town. The question amounts to this,—will you send your money from the town and assist the stranger or will you keep your money here and patronize a fellow citizen, who is as much interested in the town as you are?

## EDMONTON'S CONCESSIONS

The Edmonton City Council has recently agreed to make the following concessions to the Grand Trunk Pacific, on the proviso that they erect a hotel, costing at least \$400,000,—water at cost for twenty years and a permanent assessment of \$50,000 for five years.

The site chosen by the G. T. P. for their hotel is on McDougall Avenue and on the same ground as the Grand View Hotel now stands. Although the stated cost of the hotel by the City Council was \$400,000, it is thought that the actual cost of the structure will be at least \$750,000.

## Liquor License Ordinance

### APPLICATION FOR LIQUOR LICENSES

The following applications for liquor licenses will be considered at the Annual Meeting of the Board of License Commissioners to be held at Holden on Thursday, May 4th 1911, at two o'clock p.m.:

Solomon E. Denney, and Camille David, doing business as S. E. Denney and Co. for renewal of hotel license in respect to the Queen's Hotel, situated on lots 10, 11 and 12, in Block 11, Telford.

Martin L. Forster, for renewal of hotel license in respect to the Wainwright Hotel, situated on lots 1, 2, 3, Block 7, Wainwright.

Levi Percy Hussey, for renewal of hotel license in respect to the Park Hotel, situated on lots 27 and 28, Block 7, Wainwright.

Fred V. Peacock, for renewal of license in respect to the King Edward, situated on lots 1, 2 and 3, Block 10, Viking.

The Ryley Hotel Company, Limited, for renewal of hotel license in respect to the Alberta Hotel, situated on lots 38 and 39, in Block 5, Ryley.

William B. Fleming, for renewal of hotel license in respect to the King George Hotel, situated on lots 1 and 2, Block 6, Holden.

Dated At Edmonton this 3rd day of April 1911.

L. F. Clarry,

Deputy Attorney General.

Finnigan died and when he greeted St. Peter, he said: "It's a fine job you've had here this long while." "Well, Finnigan," said St. Peter, "here we count a million years but a minute and a billion dollars as a cent." "All, add Finnigan, 'I'm needing what I can get.' "Sure," said St. Peter, "but a minute."

## PRAIRIE FIRES SHOULD BE WATCHED

As the snow disappears and the prairie grass is laid bare, great precaution should be taken by the farmer of the outlying districts and in fact by everyone, who is compelled to build open air fires. Prairie fires are feared at almost any season of the year, and especially in the fall and spring, when the dry grass is most susceptible to flame. A note of warning should be sounded at this season, when the ground is drying, and the prairies are so inflammable. During the spring, the weather is generally accompanied by high winds which would fan such a fire and perhaps cause great disaster to the country. It is to be hoped that everyone will take the utmost precautions in this respect.

FOR SALE—About 100 tons, either baked or stacked. Good upland hay. Apply, F. B. Gano, Wainwright, Alta.

## SHOULD FEEL INDEPENDENT

The farmer who owns a farm is the particular person who is fixed. Banks may fail and factories close, workmen strike and mines suspend, merchants fail and cities burn—but the farmer who owns his acres will get along. He will live in comfort and quiet with plenty to eat and clothes to wear. He is the most independent man on earth. Still there are many farmers who do not appreciate their situation.

## Justice From Neither Party

(Grain Grower's Guide)

The farmers of western Canada today are setting an example to the world, they are showing that when a question of vital importance is at hand to be dealt with, they will place principle above party. They are wise. NEITHER PARTY AT OTTAWA WILL GRANT JUSTICE TO THE FARMERS UNLESS COMPELLED TO. The big interests dominate both political parties; and only when the common people are organized and educated to their needs, will their voice be heeded as it should be.

## March Holmstead School Report

Report for Holmstead S. D. No. 1810 for the month of March 1911.

Standard V—Ernest Stouphier, Martin Hedlund.

Standard IV—Adrian Stouphier, Harold McDougall, Idaella Gregory.

Standard III—Rether Cummings.

Standard II—Bruce McDougall, Harley Gano, Karl Stouphier.

Standard I Class B—Clayton Stouphier.

Standard I Class A—Minnie White, Percy Murry.

Enrollment for March—13. Average attendance—9.50. Pupils having perfect attendance for this month—Ernest Stouphier, Martin Hedlund, Adrian Stouphier, Harley Gano and Karl Stouphier.

A. Myrtle Taylor, Teacher.

## 5,000 Cigarettes in Three Weeks

A young man recently died in London, Ont., the direct cause being cigarette smoking. He smoked five thousand in three weeks and just before he died, he threw off a ball of liquid from his stomach, which physicians stated was pure nicotine.

## Millions for Western Canada.

J. BRUCE WALKER, Commissioner of Immigration, recently predicted that within 25 years Western Canada would have a population of Twenty-Five Million souls. Last year 335,000 settlers located in Western Canada—nearly a thousand a day. It is expected that the number this year will be much larger—that at least 160,000 will come from the States alone. Already the rush to Western Canada has begun. Trainloads of immigrants are crossing the continent every few days from the eastern seaboard. There is every indication that this will be Western Canada's biggest year.

Wainwright district with its tens of thousands of acres of rich, farming land still uncultivated, will furnish homes for thousands of new settlers, who will swell the volume of Wainwright's trade and make its continued rapid growth in population necessary.

## Do You Believe in Wainwright?

Do you believe that it is going to make one of the leading cities of Western Canada—that Wainwright and the surrounding country will get their share of the coming millions? If you do, then you must believe that Wainwright real estate offers an exceptionally good opportunity for profitable investment. Show your faith by investing your money in Wainwright.

## Reserved For Wainwright People.

When the Grand Trunk Pacific recently platted the West Addition to Wainwright, four of the best blocks in that addition were reserved for Wainwright people. Lots in these four blocks are now on sale at \$100 and \$125. Terms: One-tenth cash and one-tenth monthly, without interest. See plat and make selection before spring opens and the rush begins.

MAIN STREET

Synopsis of Canadian Northwest Land Regulations.

Any person who is the sole head of a family, or any male over 18 years old may homestead a 14 section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months residence upon and cultivation of land in each of three years. A homesteader may live within a mile of his homestead on a farm of at least 80 acres voluntarily occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a section alongside his homestead. Price \$2.00 per acre. Duties.—Must reside six months in each of six years from date of homestead entry, including the time required to earn homestead patent and cultivate fifty acres extra.

A homesteader who has exhausted his homestead rights and wishes obtain a pre-emption may take a purchased homestead in certain districts. Price \$2.00 per acre. Duties.—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$500.

# THE VOICE OF MARY ETNA

It Proves a Safeguard in Time of Need

By CLARISSA MACKIE

Copyright by American Press Association

"Never mind, Ben," encouraged Mary Etna as her husband shrugged into his overcoat and picked up his hat, "everything will come out all right in the end. All the other farmers in the county have met with the same fate that we have, only you've got the best of them. You've got your trade to fall back on."

The sudden expression deepened on Ben Madison's handsome face. "It isn't so easy to get back to work under a foreman after being your own boss for five years," he said bitterly.

Mary Etna smiled. "I know it, dear. But suppose you didn't have a trade and couldn't make up this winter for your losses of last summer. Mr. Gray has promised you steady work at \$2.50 a day. That's \$15 a week. Why, it will pay the interest and taxes for a year, besides paying all our living expenses and giving you a splendid start for the spring. You might be able to buy another cow."

"I know all the advantages," said Ben impatiently. "But you don't understand how I feel about it. Mary Etna, it's sort of admitting I've failed on the farm, just as your father said it would."

His wife's eyes flashed strangely. "You don't understand father, dear. He has already admitted he was mistaken in his estimate of you, for you have done splendidly—no one can deny that—and who could prevent the long drought we have suffered? I know he'd think it was unbecomingly of you to let him make the farm pay by doing everything you could this winter."

Ben turned away, a discouraged droop to his shoulders. Of course Mary Etna didn't know that he had gone to her father the night before and asked him for a loan of \$500 to tide them over the winter and spring. In fact, until his crops would begin to pay along in May and June, for his market garden and, for a while, the proved a very paying branch of the Madison farm.

He reddened resentfully as he remembered how he had been asked for the money. "No, Ben," Peter had said slowly, "I'm not sure I can't get the money for you. I have, but I guess I'll keep it awhile longer. If Mary Etna was a widow now, and needed my help, I would be willing to give it. But you're a man, and you've done well so far. It would only weaken you to borrow this money of me. Find a way out yourself. You'll be able to do it for it in the end, and I wish you good luck. If you were sick or there was an accident of some kind I'd be the first one on hand to help you out. But if it's you and Mary Etna who have started out for yourselves, and you're both capable of fighting it out to the end—same as the rest of us have to do."

Ben Madison thought of this conversation with increasing anger as he trudged down the frosty road that led to Ben's plowing mill. The only alternative left to him had been to seek a job at Ben's, where his owner had been thinking of him as a man who should keep a better home. Like Ben busy all winter making ready for the spring building trade, he was now going to be a hired hand. He would take the job. There were others waiting for the opportunity, but Mary had promised Ben the first chance.

When he reached the road that turned down to the mill he hesitated and then walked slowly on, head down, moodily thinking. It was the first of the railroad station, where a few loungers awaited the passing of the train. Ben looked down the shining length of track that led to the city beyond. There might be opportunities for other work than that he had left behind when he married Mary Etna five years ago. He had hated the bench work, the long hours and the carrying of the dinner pail. They had hated the Madison place. They had hated the last of his family and to the pride of the Madisons seemed concentrated in this young man with the strong, broad shoulders and the healthy drooping mouth, who imagined he had made a failure of life.

As the whistle of the approaching train shrieked from the distant crossing Ben Madison seemed to make up his mind to some course of action. He glanced quickly at the loungers congregated about the station house and stepped out of the station house and walked up the track to the raised platform where there was a little heap of baggage. He pulled his hat down over his eyes and muttered under his breath: "I just can't go back to the bench again. I'll get something to do in the city and send for Mary Etna to come. I can write to her when I get there and tell her how it is. She'll understand."

When he was in the train he tried to persuade himself that Mary Etna would understand just how he felt and look on his decision in exactly the same manner that he did. Mary Etna had pride too. He had taken her from a comfortable home, where as the only daughter of a well-to-do farmer she had had little hard work and many luxuries. All of these things she had gladly given up to marry the man who had been a hired hand and who had been a failure of life.

# WELL KNOWN SCIENTIST

Late David Boyle Had World-Wide Fame.

Recently in Toronto After His Illness of Two Years, Was at First a Blacksmith's Apprentice, Then a High Place as an Engineer.

The well-known provincial archaeologist, Dr. David Boyle, passed away recently at his home in Toronto, after a long illness. The late Dr. Boyle was one of the best known ethnologists in America and he made several valuable discoveries in his field of science. He was born in 1850, and his father was a blacksmith. He was educated at the University of Toronto, and he was a member of the Royal Society of Canada.

Dr. Boyle was a blacksmith's apprentice when he was a boy, and he was a high place as an engineer. He was a member of the Royal Society of Canada, and he was a member of the Royal Society of Canada. He was a member of the Royal Society of Canada, and he was a member of the Royal Society of Canada.

## HAPPENINGS OF A WEEK

Robert Halpenny, formerly of Wainwright, but now located at Edmonton, was in town this week, on his return from Saskatoon, where he has considerable city property. Mr. Halpenny had charge of the tracklaying on the Toolefield Branch, last summer.

Rev. Thos. Philips of the Grace Methodist Church was in Viking on Sunday last, attending the anniversary services of the Methodist Church at that point. Rev. Mr. Sykes of Edgerton was in charge of Mr. Philips' congregation here.

During the month of June, the census will be taken in the provinces, commissioners having recently been appointed to look after the work. M. A. Harpell has received the appointment for this electoral district including twenty-eight townships.

The passenger trains from the east, during the past week, have been carrying carloads of foreigners to the front, to work on the extension of the G. T. P. A walk through the car certainly proved a most interesting trip last Sunday, when some were seen on their knees, lifting up their voices in prayer; others were playing cards, while some were munching from their T. Eaton lunch boxes, procured in Winnipeg.

There will be services held in St. Thomas Church of England on Good Friday at 11 A.M. and at 7.30 P.M. Preacher, the Rev. H. A. Clark.

Fred Haltermann left last week for Battleford, where he will locate on a homestead. Before leaving, he purchased five horses from Henry Myers and will go into practical grain growing in that country.

At last Friday's school board meeting, Robert Kenny, town constable, was appointed Township Officer, his duties to commence immediately. There has been very little trouble in this respect during the past and there probably will be much less in future, when the burly Bob looks up before the truant ones.

As the passenger trains from the east arrive each day, it is very interesting to stand at the local station and watch the classes of people, who are travelling westward. Some are representatives of the working masses, others of a more wealthy class, while many by their appearance are ready to strike anything that might present itself. Keen observation is a faculty that all seem to possess, all with an eye alert to western fortune.

Dr. Chas. H. Drake, graduate veterinary surgeon and dentist from Ontario, will make regular visits to Wainwright every week. At the present time, he is located in Viking. Dr. Drake treats all animals by the latest approved methods. His ad. appears on page 3 of this issue and should prove of interest to horsemen.

A very picturesque office is the result of some painting recently done at the Park Hotel by slight-of-hand artist Cox. Paintings of the tuffalo in the park are reproduced on the walls, together with those of several artistic calendar scenes.

On Friday last, Miss Crawford was a passenger to Calgary, where she will spend Easter week with friends.

The man who works in these days stands a good chance of making a living; the man who works his fellow-men stands a chance of becoming a millionaire.

William Diet, Grand Trunk Pacific land surveyor, is here with a crew of men surveying out a new subdivision for the International Securities Co., west of the old townsite. Many of the lots in this new subdivision have already been disposed of.

On Friday evening last a special train of settlers and effects passed through here for Edmonton and points north. The party was made up of about ninety well-to-do settlers, who will probably take up land in the Peace River country.

The town school will be closed for Easter holidays, beginning Thursday noon, April 13th, and continuing until Monday morning, April 24th. The teachers will be absent from town and will attend the teachers convention at Edmonton, on April 18th, 19th, 20th.

One day last week, while motoring, one of the automobiles, had the misfortune to run down Robert Kenny's little dog and kill him on the spot. When the news was broken to Bob, the motorist said, "Well, Bob, I killed a dog today." "That's good," said Mr. Kenny, "it's a pity you didn't kill a dozen or so more." "But," said the other, "it was your dog I killed." Whereupon the reliable constable responded with a groan.

Mrs. J. L. Garvey and Mrs. H. V. Fieldhouse were visiting Mrs. B. M. Collette at Irma last week, returning home on Saturday.

Rev. Cecil McLaughlin, pioneer minister of Wainwright but of Winnipeg for the past year, returned to Wainwright on Friday last and will be in charge of the Presbyterian mission at Gilt Edge.

Save your eyes and consult M. Mecklenburg, the eminent eye specialist, who guarantees to give you the best fitting glasses and at very reasonable prices. Safe, reliable and satisfaction guaranteed. Willing to be at King's Jewellery store, Wainwright, Saturday April 29th, also at Irma Hotel April 28th, 2-4 P.M.

The parties responsible for the wrestling bout on Monday evening next April 17th, wish everyone to understand that the exhibition will be a clean and first class entertainment, fit for any lady or gentleman to witness. There is little doubt but that the bout will prove most exciting, as both contestants are confident of winning. The boxing should also prove very interesting as two very clever boxers will appear in the persons of Jack Giddy and Alf Goulet.

Contracts have already been let by Mr. W. H. Frend for the construction of a dwelling and business block at Ryley. It is his intention to open a hardware store, carrying at the same time a stock of furniture and household implements. Mr. Frend was recently elected president of the Board of Trade in that enterprising town.

Harry Limpert, the local pioneer sheep rancher, went to Calgary a few weeks ago, on business connected with the establishment of a ranch near that town. He returned here on Saturday last and will go to Calgary again in the near future.

John Rutwell of the Health section crew was brought here on Tuesday, suffering from double pneumonia and pleurisy. He was taken to the Edmonton hospital on Friday.

FOR SALE—Barred Plymouth rock eggs for sale. Apply M. A. Duffinger. 4132.

From present appearances, there will be no baseball team here this summer, no action having as yet been taken by the athletic association. Other towns are getting in line and it is to be hoped that steps may soon be taken towards reorganization.

Subscriptions are being added to the Star list every day, and subscribers are paying up their dues. All those who would have the news of a flourishing town, during the coming months, would do well to call at the office and subscribe.

The sale, now being held by My Bootman, is being well patronized by those who have been complaining of high prices and the difference between local and Winnipeg prices. Other stores are following suit and also putting on special sales.

Fred Kyle, operator at the local station, is at present at Young, Sask., relieving the operator at that place, who was called to his home by the death of his father.

Travelling Locomotive Foreman J. R. Mooney has returned here, after a month's visit to his former home in the east. His private train, Battle River, will no doubt be again seen on the line.

The Misses Messier, formerly of Montreal, are opening a dress-making establishment over the store of Betts & Co., beginning May 1st.

There probably never was a spring in the history of Wainwright, that looked more promising and pointed more favorably to a record crop than the present spring. The farmers will sow their seed with a general feeling of optimism.

Robert Huley, who has been in the store of Betts & Co. for the past year, severed his connection with the firm last week, taking a position on the G. T. P. as brakeman. Mr. Huley, during his service with Betts & Co. proved himself most pleasing and accommodating. His position was taken by Mr. Will Brinker, formerly of McGregor, Man.

During this past week, more than six hundred settlers have passed through here enroute to Edmonton and points, north and west. The numbers getting off the train at this point have certainly surpassed all expectations but the steady stream into the provincial capital is constant. Northern Alberta cannot complain of being slighted this year.

The poorest policy and the worst economy is to keep the children out of school. Every day lost has its manifold effect; the knowledge gained on that day is missed, pupil is thrown behind, becomes discouraged, has a bad effect on the class and the very habit is to be avoided.—Holden Herald.

On Saturday last, J. Deuringer, who has been associated in business with Harpell & Pawling for the past few months, left here for the States, where, it is reported, he will reside in future. Others claim that he is off on a mission, which will eventually be of interest to the welfare of Wainwright.

During the building season of 1910, many dwellings and several business blocks were erected within the town limits. From all appearances at the present time, the contractors will have a busier season than ever before. Tenders are already out for several structures and the likelihood is that several other buildings will be started during the next few weeks.

P. M. Christensen

CONTRACTOR and BUILDER

Estimates furnished to prospect Builders. Jobbing done on short notice.
